Savannah, GA 31402

Mr. Robert Prescott,

I would like to thank you for your assistance in recommending Adkins Export Packing and Machinery Movers of Savannah for the purposes of pressure washing the equipment which had been idle on your port for ten months. The organization extended their services and detail to the stringent requirements of AQIS Import guidelines. The job was finished in a period in which was longer then initially expected, but was due to the hard effort of attention to detail to which is required with used oil and or drilling equipment that gets exposed to soil and then imported into that country.

Again, the job was well done and we appreciate your referral of this company to assist us in performing this work.

Best Regards,

A handwritten signature in cursive script that reads 'Daniel S Mobley'.
