Subject: Letter of Appreciation/Recommendation

Gentlemen:

I met Ben Adkins and his crew in Freeport, Texas at another one of our plants. They loaded & transported approximately 30 boiler modules with weights up to 400,000 pounds.

They conducted themselves in a very professional manner and are knowledgeable of their job.

Ben and his crew recently off-loaded a large transformer from a rail car, transported it to location, & off-loaded it to a concrete foundation. Again they performed very professionally and were responsive to my needs.

They work with and around other sub-contractors very well. Destec Engineering, Inc., being a general contractor, finds it a great pleasure working with people of this caliber.

Destec Engineering, Inc. will use his services again should the occasion arise, and would recommend him to anyone needing his services. Ben, thank you for a job (jobs) well done. We will see you down the road again, I hope.

Sincerely,
DESTEC ENGINEERING, INC.

John McCann
