Subject: Testimony to Performance

---

Dear Eric and associates,

I believe it is either 23 or 24 plants you have export packed valuable machinery for us and our clients at Louisville. You have not only performed the packing but assisted us in shipping same.

The quality of your work was excellent and most importantly the attention to detail by you and your people was superb. I might add it was always pleasant communicating and most times fun.

It is without reservation I add my recommendation of your firm to any potential client considering using your services.

Please invite any potential customer to call me if they wish.

Best wishes for continued success.

  
John C. Kerans  
President
