Dear Sir:

It has been a sincere pleasure working with you and the other members of your organization. Our recent project of relocating the assets of HS Spring to three (3) MW Industries locations went off as planned, on budget and on schedule.

Each member of your organization impressed me with their skill, courtesy, professional knowledge and outstanding work ethic. Their ability to properly assess the required actions and promptly follow through allowed us to meet a very aggressive schedule. Their expertise assured that all items arrived in excellent condition.

Communications, always key in a project such as this, were timely and comprehensive.

Thank you again for a job well done. I can assure you we will think of you first for all future projects.
